

3rd Generation Golf College Prospect Golf Series

College Prospect Showcase Series

At 3rd Generation Golf, we aim to inspire our junior golfers in the most positive and fun environment. We host the highest quality tournaments at the most affordable price and have one of the world's best junior golf training programs.

The 3rd Generation Golf College Prospect Series allow junior golfers from across the country to compete on an elite level in a competitive atmosphere. We are excited to give our players the same experience they have come to love in an environment they have been familiar with since they were kids. Our exposure events allow college coaches to instruct, evaluate, engage, interact and communicate face to face with junior golfers from all over. Our goal is to give them the best of opportunities to showcase their skills to get to the next level.

The College Prospect concept will provide a huge value to junior golfers with goals of playing collegiate golf. Each event will have a select group of major colleges coaches to develop fundamental skills for aspiring junior golfers. College coaches agree that playing in front of colleges and learning about the college golf experience is important for the junior golfer. At 3G Golf we are not only dedicated to helping our golfers become better but committed to helping our golfers and parents connect with and learn from college coaches.

The 3rd Generation Golf College Prospect Series will run from spring to fall of every year.
